PART TWO Palestine Question

By MERWIN K. HART, Pres. National Economic Council in Economic Council Letter No. 181

Council Letter No. 181 of the semi-monthly series issued by the National Economic Council, Inc., under editorship of Merwin K. Hart, President, contains a further discussion of the Palestine Problem by Mr. Menahem Stim, a distinguished and able lawyer of New York, Mr. Benjamin H. Freedman (an exhaustive survey by whom was published recently in Common Sense), and Mr. Hart — with quotations from famous and highly regarded Jews. While it is obviously impossible to reprint the entire discussion, Common Sense feels privileged to quote therefrom as space permits.

After reiterating his remarks about the origin of the Zionist movement, Mr. Freedman says:

"Let me assure Mr. Stim that I intended no "inuendo" in declaring that American-Jewish supporters of political Zionism are guilty of un-American activity. Far from merely implying this I assert it openly. No man can have two contradictory political loyalties and be faithful to both. Nor will those imbued with genuinely American principles condone aggression against a defenseless people—who have occupied their country for 1300 years, even if the ancestors of some of the aggressors did happen to live there two thousand years ago."

Mr. Freedman then quotes Jacob H. Schiff, prominent Jewish banker, in his famous letter to Professor Solomon Schechter of the Jewish Theological Seminary, as follows:

"Speaking as an American, I cannot for a moment concede that one can be at the same time a true American and an honest adherent of the Zionist movement. They who believe and hope and labor for an ultimate restoration of the Jewish political life and the re-establishment of the Jewish nation place a prior lien upon their citizenship which . . . would prevent them from

"MYSTERIOUS" DISAPPEARANCE OF AUSTRIA'S MINISTER OF RAILROADS

From a source that this writer considers absolutely, unimpeachable, the Editor of Common Sense has just learned of the "kidnapping" of Paul Katcher, Austria's Minister of Railroads, in broad daylight on December 6th, 1947, from a street corner in the heart of Vienna, opposite the American-occupied Hotel Bristol!

Katcher was making preparations for a visit to Geneva, Switzerland in response to an invitation to explain to an international railroad convention the causes for the disappearance of Austrian railroads' rolling stock and material.

Common Sense is also informed that an account of the "mysterious disappearance" of Mr. Katcher was printed in the Vienna edition of the U. S. Army Times, but we have been unable to find any mention of the "incident" in the daily papers of the United States.

Communists are probably the kidnappers.

The Persecution of Robert Best, the former United Press Correspondent to Vienna, Now in Jail,

The contest which is now in preparation in the Robert H. Best case, before the United States District Court of Boston, bids fair to be one which will make history. Already, in spite of apparently insurmountable obstacles, the impoverished defendant (unable to secure satisfactory counsel, robbed of his money, deprived of his liberty, his personal papers pilfered without warrant, his private correspondence — even to lawyers and Congressmen — illegally censored, the records of his appearance in court falsified to hide irregularities) has exposed and corrected several of the flagrant abuses by which the Moscow-mimicking termite prosecutors who disgrace our Department of Justice frame those indicted by war-hysterical rubber-stamp Grand Jurors.

Mr. Best says that he has more than 300 specific grievances, (many of them the kind of jurisdictional errors which Appellate Courts have held require reversals of a conviction results), of which only 6 or 8 have been heretofore established to the satisfaction of the Courts, and corrected insofar as wilful jurisdictional abuses can ever be corrected by a mere non-continuance. Apparently, we may expect a repetition of the so-called Sedition Trials of Brooklyn and Washington, except that in this case the Prosecution's farcical and conniving tactics are directed at a single Defendant, who was denied even access to counsel for many months **after indictment**, while the Prosecution manipulated and framed its phoney evidence and suppressed or destroyed the real evidence. All persons who are interested in the issues which are plaguing citizens who believe in the Church and State inter-relationships which go to make up our American way of life should follow this case closely. At present, it is scarcely commented upon in the press of the country — even the stories sent to the City Desk of Boston newspapers are being played down less the exposures rock the present administrations of Truman and Clark, who have inherited this "hot potato" from a notorious Bidle witch-hunting era.

Similar "inheritances" (hot - potato cases against foreign correspondents whose views clash with those of the Red Deal — Donald Day, Edward Delaney, Ezra Pound, Jane Anderson, and those now identified but anonymous persons connected with the Tokio Rose or Axis Sally broadcasts) have been quietly dropped, but apparently the totalitarian pressure-fronts' finger-and-hatchet men:

Drew "Ananias" Pearson — the pseudo-prophet who launched 1000 hedged oracles.

Walter "Dirty Mouth" Winchell — the phoney anti-Communist, whose hysterical tongue has launched a thousand vulgar profanities.

A. "Munchausen" Derounian, alias John Roy Carlson — the poison pen that launched 1000 aliases.

William "Liar" Shirer — the foreign expert who launched 1000 trial balloons.

John "Racist" Gunther — the ubiquitous hand which launched 1000 second-hand reports.

WISDOM TO CONFFOUND THE UNGODLY

(CONTINUED FROM FIRST PAGE)

James "Professor" Sheldon — the internationalist who launched 1000 impudent dictas. Leon "Doctor" Birkhead — the unctuous front that launched 1000 rumors.

Rex "Whodunit" Stout — the bearded mystery that launched 1000 published smears. are making a determined stand to hang, discredit or silence Best.

Best's experience with the amoral political ideologies current in Russo-Balkan lands of Eastern Europe, seems to have matured and sharpened his awareness of the basic personal realities of religion, and the basis of what he calls "Defending Pro Se With God as Counsel and Assistance of such Legal Advisers as he may secure, is not a lightly taken position, nor one based solely upon his unfavorable experience with court-selected counsel, but seems to be a very rational and realistic interpretation of the Christian assurance that in the time of trial, reliance on the Spiritive God is a never-failing source of help and one on which he can rely, if other counsel continue to be unavailable, even in the confused procedural and substantive situation with which he is confronted.

Robert Best has been and is seeking the aid of experienced counsel (not some practitioner in the Boston courts who has never been so unfortunate as to have any ideological litigations and however willing is hopelessly outmatched by the imported staff of carpet bagger witch hunters who are "assisting" or superceding the Boston Prosecuting Attorney) but if, and until, such counsel is available he may with confidence look to God for help with every expectation that the few matters already corrected after so many trying months are only a token of the assistance which the final Arbiter of Justice will give.

Such assurances of divine inspiration and guidance are not the tortuous interpretations of isolated or ambitious texts but are part of the warp and woof of the scriptures — without which they would be merely historic commentaries. Since there has been a flippant tendency (inspired of course by the same sinfully amoral and atheistic people behind his detention and persecution) to make it appear that Mr. Best's reliance upon God's help in his uneven struggles against combined state and federal bureaucracies is somehow irrational, Common Sense deems it timely to enumerate some of the texts most familiar to those who believe in God — some 96% of the population of the U. S.

As this case is unfolded, those who learn the truth will see how the Invisible Government uses our Department of Justice to punish their enemies and protect their friends. The Justice Department allowed Gerhard Eisler to remain in the U. S. twelve years, actively directing the overthrow of our Government.

The writer of Hebrews 5:14 speaks of those whose senses have been trained or conditioned to discern good and evil in recommending (13:6) boldly proclaiming that God is our helper, he restates what was proclaimed in Proverbs (14:17) Psalms (28:7, 54:4, and 116:6) and in Isaiah (41:10 and 50:9).

As James (1:5) reminds us, "If any man lack wisdom, let him ask of God, who giveth to all men liberally" and as Luke (12:12) stated, "For the Holy Spirit shall teach you in the same hour (of adversity and trial) what ye ought to say," teaching what he calls (21:15) wisdom which all your adversaries will not be able to gainsay nor resist".

The first (10:19) and the second (Gospels 13:11) affirm this same assurance of, and reliance on, the Spirit of God or the Holy Spirit as did Paul in his first letter to Corinth, (2:10 to 13) where the deeper searching power of God's divine spirit is stressed, — and the fourth Gospel reaffirms again and again that thought of Ezekiel (36:27) concerning the abiding and indwelling Truth-power (14:17; 15:26, and 16:13) which is also contained in Romans (8:9, First Corinthians (3:16) Second Timothy (1:14) and 1st John (2:27 and 4:6).

An interesting emphasis is expressed by Isaiah (11:3) in discussing this ideal of an alert and understanding Spirit, rooted in one's God-consciousness and not restricted merely to impressions obtained by hearing or seeing, but it is useless and unnecessary to multiply evidence of a Truth so fundamental and obvious to the gnostic, and pearls before swine to the agnostic.

FRANK KINGDON CAMPAIGNS FOR CONGRESS ON F.D.R.'S PROMISES

Dr. Frank Kingdon, who recommends himself very strongly as next U. S. Senator from New Jersey, spoke in Elizabeth, N. J., December 16, under the auspices of the New Jersey Independent Citizens League, a front for P.C.A., which some unkind people say stands for Plain Communists of America.

Kingdon says Senator Hawkes is way over on the Right. We all know Kingdon is way over on the Left and, if not a Communist, is an active Marxist. Just a few remarks he made labels Kingdon unfit for any office, much less the U. S. Senate. He would like to bring O.P.A. back. He says "We must carry on along the great line that F.D.R. started. We must maintain freedom of speech".

Kingdon should know that Roosevelt personally signed warrants to arrest and imprison good American citizens because they criticized F.D.R. and his Marxist New Deal. Freedom of speech to F.D.R. was a one way street. If we follow the great line F.D.R. started, we will soon be paying \$1.00 for a loaf of bread.

Kingdon said "Let us recreate the one world that F.D.R. dreamed of — Security through Justice — out of which can come a genuine hope for peace". Surely Kingdon is smarter than that or does he really want World Communism?

Roosevelt condemned more people to fear, warfare and slavery than any man in history. At Yalta he turned over millions of helpless people who had trusted him. Was that justice? Poland, Hungary, Lithuania, half of Germany, Finland, Korea and Manchuria. Never was there more fear, hunger and suffering in the world and more men under arms. This war would not have happened if Roosevelt had not pushed Churchill to force Chamberlain out so they could draw Germany into attacking Poland.

Reliable people say F.D.R. promised Poland 1,000 planes within a week if they would defy Germany . . . He gave them nothing but slavery under Stalin.

Why did F.D.R. have a special law passed to prevent Tyler Kent from exposing the twelve hundred cables between Roosevelt and Churchill that Kent decoded in our Embassy in London? Why does the Truman administration prevent Kent from testifying before Congress?

Roosevelt in Washington was always looking out for the taxpayers. He raised their debt from 35 billion to 280 billion and sent 10 million of our boys to 76 points in the world, for which the world has hunger, fear and Communism.

Three hundred thousand of our boys were killed and many thousands crippled for life and the Marxists have a stranglehold on the U. S.

The Progressive Citizens of America, which is packed with Reds and Communists, wants to carry on the great line F.D.R. started and Frank Kingdon wants to be in Congress while they do.

The above answers why COMMON SENSE continues to expose the crooked, deceptive practices of the F.D.R. regime. Marxists like Kingdon and Red things like PM keep F.D.R. and his policies alive.

Kingdon should run on the Communist Ticket.

DID F.D.R. PLAN PERSECUTION?

General Lucius Clay defends dismantling of factories in Germany which would provide a way for Germans to support themselves. Over 800 plants are yet to be dismantled by our forces, while thousands of people in the United States strain themselves to send bundles to keep large numbers of innocent people alive. As F.D.R. said — things don't happen, they are planned that way.

Gen. Eisenhower was co-partner with Morgenthau on the starvation plan for Germany and Gen. Lucius Clay's advisors are Marxists, as are practically all American civilians sent by the Marxist New Deal to Europe. Germans will not be able to support themselves until the Marxists who rule them are replaced with humane Christians.

THE PALESTINE QUESTION

(CONTINUED FROM FIRST PAGE)

maintaining allegiance to the country of which they now claim to be good citizens . . . if those who come after us are to be freed from the prejudice from which this generation is not unnaturally suffering, we need feel that politically no one has any claim upon us but the country of which, of our own free will, we have become citizens, that even if we are Jews in faith there are no strings to our citizenship."

The late Henry Morgenthau, Sr., is then quoted from his autobiography:

"Zionism is the most stupendous fallacy in Jewish history. I assert that it is wrong in principle and impossible of realization; that it is unsound in its economics, fantastical in its politics, and sterile in its spiritual ideals . . . The very fervor of my feeling for the oppressed of every race and every land, especially for the Jews, those of my own blood and faith, to whom I am bound by every tender tie, impels me to fight with all the greater force against this scheme, which my intelligence tells me can only lead them deeper into the mire of the past, while it professes to be leading them to the heights. Zionism is a surrender, not a solution. It is a regression into the blackest error, and not progress toward the light. I will go further, and say that it is a betrayal; it is an Eastern European proposal, fathered in this country by American Jews, which, if it were to succeed, would cost the Jews of America most that they have gained of liberty, equality and fraternity."

Continuing, Mr. Freedman writes:

"Mr. Stim likens the situation in Palestine to that of Ireland. Anyone with even a modicum of historical knowledge can see that this analogy, instead of supporting his own case, is fatal to it. The Irish have been in continuous possession of their own land for many centuries. When the English began their bloody attempt to conquer Ireland, Ireland had been in continuous possession of the Irish for not less than thirteen hundred years — about the same length of time the Arabs have lived in Palestine! The Sinn Fein movement was the effort of the rightful and legal inhabitants to expel foreign conquerors — just as the Arab resistance to Jewish conquest of Palestine now and in the future will be a struggle for freedom."

Concluding, Mr. Freedman says:

"Mr. Stim thinks that the forcible establishment of a Jewish state in Palestine will not endanger world peace, but actually be a 'stabilizing factor'. Does he not read the newspapers? True, he wrote before the partition was voted by UN. But even then the handwriting upon the wall was clear. This is but the beginning of sorrows — not only for the Jews of Palestine, but for the Jews all over the world. And the Jews of America, in majority non-Zionist but intimidated by the fury of a little group that is leading on to ruin, may some day recall with regret the prophetic words of Jacob Schiff and the elder Morgenthau — for the sins of the few will surely be visited upon the many."

"They will be visited upon the many because the many lacked courage and will to keep order in their own house."

* * *

Summing up the questions involved, President Hart, in Council Letter 181, writes:

The United Nations was railroaded through the Congress as an instrument to promote peace. I have never believed it would be this, but believed that to the contrary it would promote friction, and eventually war. This is borne out by the recent action of the UN Assembly on Palestine.

The events of recent days prompt me to set down upon paper what I think ought to be said. They suggest that the American people have become involved in this Near-Eastern question through the schemes and machinations of an active, arrogant, if not vicious, minority — a minority of a minority.

On November 29, after political log-rolling such as one might expect in a boss-ridden county

convention, the Assembly adopted by a vote of 33 to 13 (with 10 abstaining), the scheme to partition Palestine. It was adopted in the face of the bitterest opposition from all Arab countries. It was adopted without participation by Britain which, having had a mandate over Palestine since World War I, knows more about Palestine than any other country.

At a mass meeting at Manhattan Center, New York City, on December 2, Rabbi Abba Hillel Silver, Chairman of the American Section of the Jewish Agency for Palestine, "told his audience," according to The New York Times of December 3, "that the decision of the United Nations was traceable to the everlasting will and determination of the Jewish people."

Nothing in the whole history of UN discloses better the forces that dominate it and that probably called it into being. For just one group was interested in forcing through this Palestine project, namely those political Jews who are the backbone of the Zionist movement.

We think that most American Jews know little about this question, and care little. They are Americans first, just as the vast majority of Americans of other origins are Americans first. Those who forced this project through UN are Jews first.

Drew Pearson, who claims to be on the inside of many things, asserted in his column of December 3 that President Truman had "cracked down harder on his State Department than ever before to swing UN votes for the partition of Palestine." And he proceeded to tell in detail just what Mr. Truman did to put it across. Apparently the international Jewish organization left no stone unturned to bring pressure on Mr. Truman, and Mr. Truman went all out to carry out the desires of this group.

This makes it pretty clear that the Truman Administration is in the hands of this group. Taken in connection with the bitter fight to land three Jews in the membership of the vitally important five-member Atomic Energy Commission; the aggressive efforts to force through the communist inspired FEPC law, as well as the so-called anti-discrimination laws that have been passed in two or three states; the violent efforts to force a modification of our immigration laws to permit the bringing in indiscriminately of more Jews from Europe; the studied abandonment by the federal government after 1941 of keeping records of Jewish immigration; the fact that both this and the preceding Administration of Mr. Roosevelt were infested on almost all levels with Jewish appointees, many of them communistic; read in conjunction with all of these facts, it becomes apparent what force has been molding the policy of the United States in recent years, involving it in war, and making well-nigh treasonable concessions to Soviet Russia. It explains why, after a century and a half of closely following American traditions, the United States has become repeatedly involved, at whatever cost, in events all over the world, in most of which she has not the slightest vital interest, but which, if persisted in, will surely lead the American Republic to destruction.

The Truman Administration has been greatly influenced by this group. So, we believe, to a large extent, was the Republican Party in its campaign of 1936, and especially in its campaigns of 1940 and 1944. The grave question before the American people is whether in 1948 the Republican Party will permit itself to be dictated to, both with respect to its platform and its candidate, as in the recent past.

When the UN Committee some weeks ago voted the resolution to partition Palestine, Senator Vandenberg instantly said he did not believe the United States would ever agree to send a single soldier to Palestine.

Yet if the partitioning is to be enforced, it will have to be done by American troops and American money. The American people are the only people in the world with enough wealth, and perhaps enough gullibility, to fall for such a proposition.

Drew Pearson, in that column, said with apparent satisfaction that "this is the first major instance since San Francisco in which the U.S.A. and the U.S.S.R. have worked together." But

THE "LIBERAL" — 1948 Model

Patriotism he has left behind,
And all the universe is now embraced
Within his big heart and his tortured mind.
Drafted for war, it may be he has faced
The enemies of Liberty, but now
He's joined with them and in another form
Of Socialism, to which Moderns bow,
He'd rule or ruin, following the norm
Set up by Hitler and by Ulianov,
Destroy our great Republic, bend his knee
To Government in place of God and scoff
At everything that's kept one Country free.

LAMBERT FAIRCHILD
390 West End Ave., N.Y.C.

is Pearson dull enough not to be on his guard because of this very circumstance? Wily Soviet Russia knows precisely what she wants, just as these Zionist Jews know precisely what they want. Soviet Russia, of course, will gladly send troops to "assist" in forcing through of the Palestine agreement — why shouldn't she? But when those Russian troops go into that Arabian territory, they will never leave.

Because of plain speaking on this subject, the Daily Worker, the New Masses, PM, the Communist Party and other organizations of that kind will raise the cry of anti-Semitism. But that cry is wearing pretty thin. That epithet has been a useful smoke-screen. The phrase "anti-Semitic" is especially nonsensical in this instance. For the Arabs themselves are Semites, and they are many times more numerous than the Jews.

In the second place, to raise the cry of anti-Semitism, or even of anti-Jewism, in the United States is particularly absurd, because here, more than in any other country in the world, the Jews have had and have fully exercised their opportunities. The real offense is anti-Gentilism. If anti-Jewism is stronger in the United States than at any time in the past, the Zionist Jews have brought it about.

And this leads to the reason why I am willing to say all this. This aggressive Jewish group can wreck the United States. But if their attitude continues they will wreck themselves before the United States is wrecked. There will surely be a repetition here of all the outbursts and violence against Jews that have taken place in so many other countries. May that evil day never come! For the wrath of the American people would likely explode against all Jews, even the great majority who are Americans before they are Jews.

Those at whose instance partition was forced through UN must know that the Near East has long been a danger spot in international affairs; that another world war would so deplete the resources and man power, and so wrench the free institutions of the United States as to force upon her a regimentation under which, for all Americans now alive, liberty would not return. They must know that those Americans who would have to fight in such a war would be largely, if not entirely, non-Jews. They must know that Soviet Russia thrives on discord and war, and they must see that she would profit by this conflict.

Since Soviet Russian and American representatives in UN stood together on the partition project, the inescapable query arises — **can it be possible that the Zionists and the Communists are one and the same?**

And is it not possible that radical Jewish aggressiveness, author of the Morgenthau plan, is responsible for the Administration still forcing the destruction of the 682 German industrial plants, in spite of rising indignation in the United States, while at the very moment Mr. Truman is asking Congress to re-regiment the American people so that they may be forced to give up enough of their dwindling resources to replace what the vindictive American policy has been — and still is — tearing down?

Perhaps this self-centered Jewish group lustng for power, is what has been standing in the way of the American Congress and the American people taking back control of their own government.

All these questions cry out for investigation. The truth, whatever it is, should be bared before the American people. They, including conservative Jews, are entitled to know the facts.

We commend this investigation to the Congress of the United States.

Merwin K. Hart, President,
National Economic Council, Inc.

Common Sense publishes the excellent article by Mr. Hart to assist our readers to understand what the situation is that the U. S. faces.

As we move nearer war with Communist Russia, most citizens believe this is the only enemy and that once America fully realizes the danger we will drop all domestic differences and present a United American front and defeat Communism. These are the thoughts (if any) given to Communism by wealthy Americans who spend their winters in Florida and their summers in Maine. They figure that, if war comes, we will just have to dig down deeper to pay for another war — or, who knows but that they will make money on it?

It is not this simple.

Sleepy Americans will have similar experiences to Poland, which was fighting Germany and turned to Russia for help. Russia had given Warsaw the word to attack the Germany Army and not surrender. The 63-day seige started — Poland with her back to the wall, fighting Germany, was attacked by Russia, which was by then fighting Germany. Such is the Marxist idea of fair play and such is the position of the U. S.

Our most clever and dangerous enemies have been entrenching themselves in Washington for 15 years. Marxists who created Communism as a front, work behind it as they do behind the New Deal — from where they direct our international and important domestic moves. Truman, just as Roosevelt, must appoint Committees from the names handed him by the Invisible Government; well-paid press agents have built up public confidence in certain Presidential Advisors, who have increased our debt nine times and apparently they are just getting started.

Bankruptcy is their goal to bring us slavery. These World Marxists have been maneuvering us into a war which they know we are unable to carry on. When the U. S. finds itself trapped into war and discovers that Marxists actually control our full protective system, there will be an awakening — but too late! Big men will be jumping out of buildings or, as Joseph Goebels did, poisoning their whole families. That is what the complacent people in the U. S. will be doing.

Likely, then, the President will issue an order closing all business in the U. S. and ordering us to stand by for an important announcement over the radio the following day.

Confusion will exist a thousand times greater than in New York after the Big Snow. The following day the President is likely to make an announcement such as:

"We face the gravest situation in the history of the U. S. It is necessary to place the Country under control of a Committee of Five Advisors, who will have complete control of all City, County, State and National Officers, who will take orders from them".

This Committee will be Marxists (Common Sense believes we can name three of the Committee). President Truman and most members of Congress will be jailed. Some resistance will be made but will be put down ruthlessly as a revolt against the Government. Many of the rich who are now on the beaches in Florida will be put in coal mines in Pennsylvania, some in labor gangs on farms. Some nationalities in U. S. will be completely wiped out, such as Ukrainians, Polish, Germans. The Irish, of course, will fight and be liquidated. Rape will be widespread. Approximately 6% of the population will live in luxury, while 94% will be slaughtered or live as slaves.

Only those who do not know what Marxism is will deny the above prophecy of what will surely happen if the Marxists' control program is not brought to an abrupt halt and SOON! Before this is over, we will all wish we had fought harder and spent more money to stop this thing!

Communists talk about the rich Capitalist, but the many with money will not come close to matching the traitors with dollars in an effort to save our liberties. We few on the front lines, carrying on the fight against Communism for a long while, have learned that if America is saved it will be done by the small, sincere, Mr. and Mrs. America. Those sincere Christians loyal and courageous enough to stand by their leaders, who expect to be tortured if we lose this important battle for a free America.

MARX AND LENIN, PARASITES

History proves that those reformers who gave the most of revolutionary economic schemes for society, were either men who could not manage their own affairs, or else were dependent on others for a living, like KARL MARX, the founder of Communism, who, from the day he went to England until the day of his death, never earned a single cent as a worker. He was a megalomaniac, unbalanced and filled with hatred. Yet, his pedantic theory was grasped by Lenin, to form a national following.

When Lenin came into power and was setting up the Communistic State, he threw out belief in GOD, thinking the State would be supreme, the masses liberated and Lenin would be triumphant.

In 1923, his mind deranged, Lenin lay like a log for the most of the year. Toward the end of it there was a slight recovery, and he was allowed to go out for a sleigh ride. He went, muffled-up in furs and rugs, and, a little idiotic now, carrying with him a gun which he stroked, smiling the while a foolish smile. It was the last flicker of the guttering candle. With the new year came relapse and total collapse, and, on January 24, 1924, he died.

Such was the end of Lenin, whose career is stained with rivers of blood of his Russian people, leaving them stripped of their freedom, their wealth, their culture and their religion.

UNITED NATIONS A MARXIST CREATION

Someone in the administration has caused the arrest of two Communist correspondents to the U.N. and asks for their deportation. Syed Hasan, representing People Age of Bombay, India, and Nicholas Kyriazidis from Greece.

Trygve Lie, U.N. Secretary General, who came to their defense was himself Stalin's errand boy in Norway.

If the Communists, Marxists and Marxist tools like Eleanor the Grate, were removed from U.N., there would be no more U.N., for U.N. is a Marxist creation; only those who do not inform themselves are not aware of this.

FORTY-FIVE THOUSAND PEOPLE STILL PAID TO BRAG ABOUT NEW DEALISM

(Republished from the New York News)

Alarmed by the mushrooming propaganda facilities of the Democratic Administration, two ace prosecutors whose talents for ferreting out corruption and graft sent them to Congress, are now training a practiced eye on the labyrinth of government press agency.

One of the quizzical legislators is Senator Homer Ferguson. The other is Representative Forest Harness of Indiana.

Both legislators first became concerned upon learning that the Administration spent \$75,000,000 for "publicity and information" last year—a jump of \$48,000,000 over 1941.

Delving further, they discovered that the executive branch employs 23,000 full-time, and 22,000 part-time press agents to "sell" the people on various government agencies.

The two Congressmen became convinced that the 45,000 employees carried on the payroll as such, represent an infinitesimal part of the total "propaganda payroll" of the executive branch. When the OPA was attacked, Ferguson charges the whole organization became a propaganda machine. When the border patrol was cut, he found, the entire Internal Revenue Bureau trained its propaganda guns on Congress and the people.

It is obvious to Common Sense that these 45 thousand employees received and spent vast sums of money mainly to force Communistic ideas onto unsuspecting taxpayers. The Marxist New Dealers use the taxpayers' money to bankrupt and enslave them. These same tactics were used to scare, lie and push us into the last war.

Now they are going to use the Atomic Bomb and the Russia Scare to push us into World Government, which is World Slavery to Marxism, IF we don't stand up and fight!

THE FOUR PHASES OUTLINED FOR RUSSIA'S RISE TO WORLD CONTROL

A confidential memorandum recently distributed among Communist leaders in several of the Russian-dominated countries of Central and Southeastern Europe describes the phases in which the "final struggle" between Communism and capitalism is expected to develop:

1. **Consolidation of the power of the Soviet Union in the countries of the Slav bloc** is referred to as the first phase.

2. The establishment of **Communist Governments in Western Europe** will come second, according to the memorandum. The chaos in Germany, Italy and France is said to have created favorable conditions. France is said to be the first country likely to get Communist Government. Italy and Spain are expected to follow. Germans can be used as technicians and organizers in all countries, the document states. The trouble in Greece, China and Palestine may also be expected to continue, it adds.

3. The **peaceful conquest of Great Britain** is next on the list. Britain is no longer a great power, it is pointed out. The left wing of the Labor Party is becoming increasingly stronger and will eventually be able to seize power, the document says.

4. **This will leave the United States as the only opponent** to be fought, the circular points out. It is no longer an isolationist country but an imperialist power, and American plutocracy is an all-out enemy of the USSR, the document declares. It may be possible, however, to avoid war because "the Americans do not want war" and "the economic crisis which has already begun is sure to become worse", and then "Communists will be able to extend their influence in the labor unions and to work for peace".

PRAYER AND THE CONSTITUTION

We are today in a state of mind similar to that of the makers of our Constitution in convention a hundred and fifty years ago. They could not agree nor try to agree. Then Benjamin Franklin arose and, addressing the presiding officer, General Washington, said: "Mr. President; The small progress that we have made is, methinks, a melancholy proof of the imperfection of the human understanding. How has it happened, Sir, that we have not hitherto once thought of humbly applying to the Father of Lights to illuminate our understandings? The longer I live, the more convincing proofs I see of this truth, that God governs in the affairs of men, without this concurring aid, we shall succeed in this political building no better than the builders of the Tower of Babel; I therefore beg to move that henceforth prayers be held in this assembly every morning before we proceed to business."

LETTERS TO THE EDITOR

Editor, Common Sense:

Your issue of Common Sense of Nov. 30 is a powerful number. If a person knew nothing but what this number contains exposing Communism, he could not be a loyal American without taking a definite stand against Communism.

I am glad you raked the Lilienthal Committee. He was in Chicago during the past two weeks, talking to a Red group and told them that there is no secret about the Atomic bomb and that those who think there is are silly.

W. G., Chicago.

Editor's note:—Before Lilienthal took charge, we were told we held the Atomic secret and David Lilienthal was the man to protect it. Now he tells us there is no secret. This confirms what we were sure of right along; namely, that after the Marxist took charge it would not be a secret as far as the U. S. is concerned. With Marxists like Albert Einstein, who belongs to plenty Red fronts, and many other Marxist scientists connected, there was plenty of reason to have left the Military in control.

Common Sense:

Enclosed find \$3.00 for printing cost of 100 papers. Put them where they will do the most good. All these world events are signs of the closing of this dispensation and warns us of the soon return to earth of our Lord Jesus Christ. Only the Prince of Peace can bring peace to this sin-cursed world which has been man-handled long enough. My prayer is that God will keep America free and bring our people back to God.

Sincerely, H. G., Los Angeles, Calif.
